Professional Summary

A recent graduate at the UCLA Ext. Full Stack Coding Bootcamp who loves solving the puzzles and challenges of seeing a project go from an idea to a fully functional and polished application. Have enjoyed working at companies where collaboration and acquiring new knowledge occurred daily. My next desired role would be as a Jr back-end developer so that I may continue to learn and grow in my desired profession.

Technical Skills

Languages: HTML5, CSS3, Javascript, MySQL,

Tools/Applications: MongoDB, Sequelize, Firebase, JQuery, Bootstrap, MySQL Workbench, Node Js, Express, Handlebars.js & ReactJS

Projects

blue-project-2 (group project) | <https://github.com/Adonio/blue-project-2> | <https://blue-project-2.herokuapp.com/>

- This project is travel application for people who can't decide where to take their next vacation. The application prompts the user to fill out a simple sign up form and our algorithm utilizes data from the users location, age, culture, and a few uploaded photos to recommend a country to visit.
- My responsibilities included setting up an authentication program to sign up and login users, as well as developing the logic to the location and age aspect of the travel algorithm
- Used Javascript, Express, Sequelize, Node Js, Handlebars, passport and geoip-lite npm package, and Microsoft Computer Vision API

burger-devourer | <https://github.com/Adonio/burger> | <https://shielded-lowlands-90198.herokuapp.com/>

- This app uses Node, Express, and MySQL to perform queries to a dynamically created table in a database. The user will have the ability to add new burger to a list of uneaten burgers, or devour any burger of their choosing that will be moved to a parallel list.

liri-node-app | <https://github.com/Adonio/liri-node-app>

- This app will act as a language interpreter, utilizing the API's from bandsintown, Spotify, and OMDb. The app is designed to work with Node on the command line of your terminal or gitbash.
- Since this application works solely on Node Js, there is no deployed version of the app, however the apps functionality can be viewed by the attached videos in the README

Experience

Logix Federal Credit Union- Newbury Park, CA

May 2019- February 2020
